### AREA V ELECTIVES

Courses not used for specific AREA requirements or allocated to “DO NOT COUNT” (letter F below) are applicable toward total hours needed for the baccalaureate degree.

### GENERAL INFORMATION

A. A minimum of 120 credit hours must be completed for graduation. This total must include residence of at least two semesters at IUPUI and completion of at least 32 credit hours at the 300-level or above taken at IUPUI.

B. No more than 6 credit hours of athletic, studio, clinical, performing arts course work will count towards the degree unless they fulfill the requirements for a second major, a minor or a certificate.

C. Independent study (correspondence) courses may be taken for general electives up to a maximum of 12 credit hours with approval from the School of Science.

D. Courses taken on the pass/fail option will only count as general electives and not towards any degree requirements of the School or Program.

E. Capstone Experience Course: Required of all majors, the capstone is an independent, creative effort of the student that is integrative and builds on the student’s previous work in the major (research, independent study/project, practicum, seminar, or field experience). See departmental sections of the bulletin for specific information about the capstone and independent research courses.
